Projects

Ariqt-Ecommerce-App | Web Developer

Developed a feature-rich e-commerce app with a seamless shopping experience. Achievements include an intuitive product display, robust shopping cart, and wishlist functionalities. Integrated MSAL for enhanced security. Implemented an Azure CI/CD pipeline for seamless deployment and continuous integration. Used JSON data for efficient implementation of GET, PUT, POST, and DELETE methods. Created comprehensive documentation, employed a tech stack including HTML, CSS, JavaScript, Vue.js, and conducted thorough testing.

Project Link - <https://ariqt-ecommerce-app.azurewebsites.net>

Ping Pong Tournament App | Web Developer

Developed a dynamic "Ping Pong" tournament app for 32 players with a robust backend supporting GET, PUT, POST, and DELETE API calls. Implemented a visually intuitive bracket system, enabling administrators to input scores for precise result calculation. Culminated in a thrilling final round showdown where the administrator determines the ultimate winner. Utilized HTML, Tailwindcss, JavaScript and Vue.js for an interactive user experience. Designed with scalability in mind, accommodating potential future enhancements.
